

STUDENT SESSION

The Studio Task Board

Name: _____ Class: _____ Date: _____

You're on the crew at Big Dream Studio — a small recording studio. **Nia** owns the place and coaches the artists. **Ravi** runs the mixing boards. **Jaylen** runs the front desk. There's too much to do, so the crew just got an AI assistant. Your job: decide what it does — and what it never touches. Every decision (grown-ups say "a call") helps someone and costs someone.

- **AUTOMATE** — boring and repeating. No decisions to make. Hand it to AI.
- **AUGMENT** — a human makes the call, AI helps out.
- **KEEP HUMAN** — coaching, taste, being there for someone. The person is the whole point.

THIS WEEK AT BIG DREAM STUDIO

- | | |
|--|--|
| <p>A. Send the "don't forget your session" texts to this week's artists (<i>Jaylen</i>)</p> <p>B. Rename and back up 300 audio files from last night (<i>Ravi</i>)</p> <p>C. Write the first draft of this week's social media captions (<i>Jaylen</i>)</p> <p>D. Mix a rough first version of a new artist's song (<i>Ravi</i>)</p> <p>E. Coach a nervous first-time singer through her first recording (<i>Nia</i>)</p> <p>F. Politely remind three people who still haven't paid the studio (<i>Jaylen</i>)</p> | <p>G. Pick which of an artist's five new songs to release first (<i>Nia</i>)</p> <p>H. Set up the microphones for a live band and fix the echo (<i>Ravi</i>)</p> <p>I. Agree on a price with a group that wants the studio for three days (<i>Nia</i>)</p> <p>J. Type up the lyrics from yesterday's made-up-on-the-spot rap session (<i>Ravi</i>)</p> <p>K. Answer the same five questions everyone emails (price, hours, parking) (<i>Jaylen</i>)</p> <p>L. Plan the song order and mood for the big show night (<i>Nia</i>)</p> |
|--|--|

SORT THE BOARD

Write each task's letter in the column where it belongs — as many letters as belong there. **Every column needs at least two.** Disagree with your partner? Good — talk it out. That's the lesson.

AUTOMATE — HAND IT TO AI	AUGMENT — AI HELPS OUT	KEEP HUMAN — HUMANS ONLY

THE TRADE — EVERY CHOICE HAS A COST

Every choice helps someone, costs someone, and could go wrong — grown-ups call that a **tradeoff**; we say **the trade**. Pick **TWO** choices from your board and write the trade for each.

Choice #1 — Task letter: _____

☐ AUTOMATE ☐ AUGMENT ☐ KEEP HUMAN

Who wins? _____

Who loses something? _____

What could go wrong? _____

Choice #2 — Task letter: _____

☐ AUTOMATE ☐ AUGMENT ☐ KEEP HUMAN

Who wins? _____

Who loses something? _____

What could go wrong? _____

DEFEND IT — SAY IT OUT LOUD

First, fill in your claim — the sentence in the box below (what you say is true, and why). Then two pairs face each other. Face the person across from you. **Speaker 1** reads their claim out loud (30 seconds), then slides their sheet across. **Listener 1** checks the three boxes and writes keep or fix (30 seconds), then slides it back. Switch: Speaker 2 reads, Listener 2 marks. Everyone ends with their own sheet. Three moves: **eyes** up off the page; **voice** to the back wall; **slow down** on the word "because."

Task _____ belongs in _____

because _____

— and the trade is _____

Listener: check the box for each move you saw, then write one thing to keep and one thing to fix. Then slide the sheet back.

☐ Eyes up ☐ Voice reached the back ☐ Slowed down on "because" Keep: _____

Fix: _____

EXIT TICKET — A REAL JOB YOU KNOW

Sort a real job — one someone in your life really has (family, neighbor, coach, teacher).

The job: _____

AUTOMATE — one boring, repeating task AI should take — and who loses something when it does:

AUGMENT — one task where the human makes the call and AI helps out:

KEEP HUMAN — one task that should stay fully human, and why:
