

END OF UNIT

My AI Rules

Name: _____ Class: _____ Date: _____

Six lessons, six rules. Write each one for your real life, in your own words. Stuck? Look back at that lesson's sheet. **P.R.O.** means Purpose, Requirements, Output. Your **taste file** lists how you like to sound.

**The genie LESSON 1**

Write one P.R.O. prompt you could really use next week. Give it at least two rules.

**The playlist LESSON 2**

Pick an app you use. Who could its playlist leave out? What would they ask for?

**The fact desk LESSON 3**

Write one thing you heard this week that you would check. Where would you check it?

**The taste file LESSON 4**

Write one line an editor should always know about how YOU sound.

**The task board LESSON 5**

Name one task you would never hand to a robot. Why does it need a person?

**The squad LESSON 6**

Your AI squad hands back its work. What is the first thing you check, and why?

The rule under all six: you start the job, AI does the middle, and you check what comes back.
