SIX DAYS, ONE SKILL

AI Literacy Unit

A good AI job starts
and ends with a human.

Grades 6–8

6 × 45-min lessons

No prep • No devices needed

UNIT OVERVIEW & PACING GUIDE

AI Literacy Unit

Six 45-minute lessons that run on paper. No prep, and no student ever needs an AI account. Teach them in order, or pull any one. Each lesson stands alone.

◆ SIX DAYS AT A GLANCE

LESSON AND HUMAN JOB	ON THE BOARD	GROUPS	PRINT EACH • SET UP
DAY 1 How to Talk to AI <i>Human job: both</i>	P.R.O. (Purpose, Requirements, Output)	Solo, then swap sheets	2 pages, no setup
DAY 2 What's in the Playlist? <i>Human job: the check</i>	INPUT → PATTERNS → OUTPUT	Pairs (App and Caller); the next pair calls in request #7	2 pages, no setup
DAY 3 Hallucination Hunters <i>Human job: the check</i>	UNDERLINE → MARK → LATERAL-READ → VERDICT	Pairs (fact desks), then solo drafts and a swap	3 pages + a board tally
DAY 4 Teach AI Your Taste <i>Human job: both</i>	YOU draft → editor gives notes → YOU revise	Solo, then partners swap all pages	3 pages, no setup
DAY 5 Robots Do the Boring Work <i>Human job: the start</i>	AUTOMATE • AUGMENT • KEEP HUMAN	Pairs, then groups of 4	2 pages + Defense Rubric (Teacher Guide p.3)
DAY 6 Lead Your AI Squad <i>Human job: both</i>	QUESTIONS → ROLES → CHECK THE LOOT → SHIP IT or RUN IT BACK	Teams of 3, set ahead	3 pages + 1 scrap sheet Don't staple p.1
AFTER LESSON 6 My AI Rules <i>Human job: both, in real life</i>	One question per lesson	Solo, 15 minutes	1 page, no setup

Copy count: 15 worksheet pages per student for the six lessons (2 + 2 + 3 + 3 + 2 + 3), plus 1 page for My AI Rules. For a class of 30, that is 480 pages and 30 scrap sheets.

◆ THE THROUGH-LINE

Human → AI → Human. A good AI job has two human parts. A person starts it (the prompt), and a person ends it (the check). Lesson 1 trains both, and Lesson 3 goes deep on the check. Those two jobs carry over to whatever AI tool your students pick up next.

The honesty policy, in one sentence students can remember: AI is your editor, not your ghostwriter.

STUDENT SESSION

The Studio Task Board

Name: _____ Class: _____ Date: _____

You're on the crew at **Big Dream Studio**, a small recording studio. **Nia** owns the place and coaches the artists. **Ravi** runs the mixing boards. **Jaylen** runs the front desk. There's too much to do, so the crew just got an AI assistant. Your job: decide what it does, and what it never touches. Heads up: "making the call" means deciding. And every call has a **trade**: someone wins, someone loses something, and something could go wrong. (Grown-ups call it a *tradeoff*.)

- **AUTOMATE** — boring and repeating. No decisions to make. Hand it to AI.
- **AUGMENT** — a human makes the call, AI helps out.
- **KEEP HUMAN** — coaching, taste, being there for someone. The person is the whole point.

THIS WEEK AT BIG DREAM STUDIO

- Send the "don't forget your session" texts (*Jaylen*)
- Rename and back up last night's 300 audio files (*Ravi*)
- Write the first draft of this week's social media captions (*Jaylen*)
- Mix a rough first version of a new artist's song (*Ravi*)
- Coach a nervous first-time singer through her first recording (*Nia*)
- Politely remind three people who still haven't paid the studio (*Jaylen*)
- Pick which of an artist's five songs drops first (*Nia*)
- Set up the microphones for a live band and fix the echo (*Ravi*)
- Answer a price with a group that wants the studio for three days (*Nia*)
- Type up the lyrics from yesterday's freestyle rap session (*Ravi*)
- Answer the same five questions everyone emails (price, hours, parking) (*Jaylen*)
- Plan the song order and mood for show night (*Nia*)

SORT THE BOARD

Write each task's letter on your own board, in the column where it belongs. A column can hold lots of letters, but every column needs at least two. Disagree with your partner? Good — talk it out. That's the lesson.

AUTOMATE — HAND IT TO AI	AUGMENT — AI HELPS OUT	KEEP HUMAN — PEOPLE STUFF

STUDENT SESSION • YOU'RE THE PARTY LEADER

Run the Quest

Name: _____ Class: _____ Date: _____

Everyone is a party member AND a leader. Steps 1–2: you lead. Step 3: you play an AI agent. Step 4: you lead again. An AI agent does a whole job, step by step, on its own — and if your card leaves something out, the agent usually fills the gap with a guess and keeps going. So the leader checks, using the loop: **QUEST CARD → ROLES → CHECK THE LOOT → SHIP IT or RUN IT BACK.**

Party = your team of 3; a **party member** does one job. **Roles** = who does which slice. **Quest card** = the job, written down in four parts. **Loot** = the finished work. **SHIP IT** = finished and correct, send it. **RUN IT BACK** = do it again.

✓ STEP 1 — PICK YOUR QUEST (TEAM OF 3, CHECK ONE)

- ☐ **GAME NIGHT FLYER** — a one-page flyer that gets 6th graders to show up
- ☐ **CLASS MAGAZINE, ISSUE #1** — the plan for the first issue of a magazine your class makes

✓ STEP 2 — WRITE THE QUEST CARD (ONE PER TEAM)

Decide all four parts together. One person writes them: the **card-holder**, whose first name comes first in ABC order. The card-holder's page 1 becomes your team's quest card.

GOAL

What does winning mean?

WHAT WE KNOW

Who is it for? What does your team have?

RULES OF THE RUN

Limits: how long, what tone, when it's due

DONE LOOKS LIKE

The exact thing handed back
